

# Pet Portrait Workshop with Rochelle Rice

Tuesday or Wednesday, September 19 or 20, 2024

*This is a one-day workshop. It is being offered two days.*

## Homework Prior to Class

- Print an 8x10 color photo of your pet. Crop your photo, trying to get as much of the face as you can. The higher quality and clearer the photo, the sharper your enlargement will be. It should cost you around \$3.
- Print a black-and-white enlargement of your color photo at 200%. The enlargement should cost under \$5. I go to FedEx and scan my photo on the plotter and enlarge it to 200%.
- Bring both the color photo and the black and white enlargement to the workshop.
